

**ADDENDUM TO AN EIR
USE OF A FINAL EIR PREPARED FOR A PREVIOUS PROJECT**

Pursuant to Section 15164 of the CEQA Guidelines, the City of San Jose has prepared an Addendum to an Environmental Impact Report (EIR) because minor changes made to the project that are described below do not raise important new issues about the significant impacts on the environment.

PROJECT DESCRIPTION AND LOCATION

PP10-008. Evergreen Village Square Southeast Branch Library. Addendum to the Evergreen Specific Plan EIR for the construction of a 12,000 square foot branch library, located on the southeast corner of Classico Avenue and Cortona Drive on a 28,000 square foot portion of a 3.6 acre site.

Council District 8.

County Assessor's Parcel Number: 659-56-063

The environmental impacts of this project were addressed by a Final EIR entitled, "Evergreen Specific Plan EIR," and findings were adopted by City Council Resolution No. 63179 on July 2, 1991. Specifically, the following impacts were reviewed and found to be adequately considered by the EIR:

- | | | |
|---|--|---|
| <input checked="" type="checkbox"/> Traffic and Circulation | <input checked="" type="checkbox"/> Soils and Geology | <input checked="" type="checkbox"/> Noise |
| <input checked="" type="checkbox"/> Cultural Resources | <input type="checkbox"/> Hazardous Materials | <input checked="" type="checkbox"/> Land Use |
| <input type="checkbox"/> Urban Services | <input checked="" type="checkbox"/> Biotics | <input checked="" type="checkbox"/> Air Quality |
| <input checked="" type="checkbox"/> Aesthetics | <input type="checkbox"/> Airport Considerations | <input type="checkbox"/> Microclimate |
| <input type="checkbox"/> Energy | <input type="checkbox"/> Relocation Issues | <input type="checkbox"/> Construction Period Impacts |
| <input checked="" type="checkbox"/> Transportation | <input checked="" type="checkbox"/> Utilities | <input checked="" type="checkbox"/> Facilities and Services |
| <input checked="" type="checkbox"/> Water Quality | <input checked="" type="checkbox"/> Agricultural Resources | |

ANALYSIS:

The proposed site was analyzed in the Evergreen Specific Plan EIR for commercial uses as a part of the 150,000 square foot Village Center commercial area. A public library is permitted use in the Village Center. An Initial Study was prepared analyzing the impacts that would occur from a 12,000 square foot library rather than commercial uses on the project site, and no new impacts were found beyond those discussed in the adopted EIR.
